PROFESSIONAL PROFILE

Motivated Software Engineer with hands-on experience in full-stack web development using Python, Django, HTML, CSS, and JavaScript. Proven ability to design and deploy scalable web applications end-to-end. Actively expanding expertise in Cloud Computing (AWS), DevOps automation, CI/CD pipelines, and Infrastructure as Code. Seeking entry-level software engineering roles to contribute to high-performance engineering teams while growing cloud and DevOps disciplines.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science & Engineering

Bethlahem Institute of Engineering, Kanyakumari, Tamil Nadu

Graduating June 2025 | Area of Interest: Full-Stack Development, Cloud Computing, DevOps

TECHNICAL SKILLS

Cloud & DevOps: AWS (EC2, S3, IAM, VPC, RDS) | Docker | Kubernetes | Terraform | Ansible | CI/CD Pipelines

Backend & APIs: Python | Django | REST APIs | MongoDB

Frontend: JavaScript | React | HTML5 | CSS3 | Vite | Tailwind CSS

Version Control & CI/CD: Git/GitHub | GitHub Actions | Jenkins

Tools & Data: VS Code | Docker Desktop | Maven | Linux | scikit-learn | pandas | Data Analysis

PROFESSIONAL EXPERIENCE

Software Development Intern | Crescent Infotech | June 2024 – August 2024

- Developed 3+ intelligent software prototypes applying machine learning and data processing concepts, reducing manual data handling time by approximately 30%
- Completed end-to-end software development workflows across 2 project cycles, improving delivery speed and code quality
- Collaborated with team of 5 developers to build and test data-driven solutions, strengthening Python programming and analytical skills

PROJECTS

E-Commerce Web Application (Python, Django, JavaScript, HTML, CSS, MongoDB)

- Designed and developed fully functional e-commerce platform with 5+ core modules including product listing, shopping cart, user authentication, payment integration, and order management
- Optimized front-end components across 10+ responsive UI pages using code splitting and lazy loading, reducing page load time by 40%
- Implemented structured Django and MongoDB backend with 3 data models (products, orders, users) following MVC architecture for maintainable and scalable code

CERTIFICATIONS & TRAINING

Internships & Practical Training

- **Artificial Intelligence & ML Internship** – Crescent Infotech (2024) | Python, scikit-learn, ML Prototyping, Data Processing, Production Workflows
- **Web Development Internship** – NoviTech (June – July 2023) | HTML5, CSS3, JavaScript, Responsive Design, Frontend Development

Cloud & DevOps Certifications

- **Cloud DevOps** – SLA (Softlogic Academy, 2026) | Docker, CI/CD Pipelines, Infrastructure Automation, Containerization, DevOps Practices

Data Science & Full Stack Development

- **Data Science with Python** – IMAI (October 2023) | pandas, scikit-learn, Machine Learning, Data Analysis, Statistical Analysis
- **Python Full Stack Development** – E-MAX (2025) | Backend (Django), Frontend (React), REST APIs, MongoDB, Complete Web Development
- **Data Science using Python** – VEI Technologies (2022) | Python Libraries, Statistical Analysis, Data Visualization, ML Fundamentals
- **Interaction Design & Prototyping** – Feather (2024) | UI/UX Design Principles, Figma, Prototyping Tools, User Experience Design

ACHIEVEMENTS

- Completed industrial visit at Srishti Campus, observing agile project management workflows across 4+ enterprise software teams
- Identified 3 key areas for personal skill development in cloud infrastructure and CI/CD automation based on enterprise technology exposure
- Developed professional portfolio website with CI/CD pipeline visual motif using React, Vite, and Tailwind CSS

SOFT SKILLS

Problem Solving | Team Collaboration | Quick Learning | Communication | Attention to Detail

DECLARATION

I hereby declare that the information provided above is true and complete to the best of my knowledge and belief.
